Mr Booth’s Head of Year Message

Year 7, Week 14

Hello everyone,

Nearly made it to the end of term! Which seems strange as most of you are not at school......and we don't get to throw loads of chocolate around and say well done to many of you. We just have to adapt for quite a while, but let's turn this situation into one that is as positive as possible.

I really like some of the messages on Mrs Cartledge's Surviving Lockdown presentation this week - make sure you have a good look. It should make you think about how important education can be and how you can make a positive difference to your community, country and world. Individual actions and small things are so important in helping us change for the better.

All of you have achieved something positive this year. For so many of you there will be loads of examples here and this is what I want you to think about now.

How have I changed for the better this year?

Don't dwell on mistakes you have made, think about them differently. They are a chance to make improvements and accept them as something that happens in our lives. In Year 8 I will talk about you looking for and making improvements from the position you are in now.......it is a really exciting year in so many ways and even though it may feel a bit odd at first when you come back it is a chance of you to say, 'Right, here is my chance to succeed, let’s get on with it!'

This is what I want to see in all of you when we start in September.

Well done on your efforts - some truly outstanding work recently - stay safe outside, inside and online over the next few weeks........hopefully the sun may shine for a few hours as I have heard that does occasionally happen in August.

Well done again Year 7......or should I say welcome to Year 8!

Thanks

Mr Booth
